SUMMARY

Frontend Engineer specializing in React, Next.js, and TypeScript. Formally trained through ITAcademy's Certified JavaScript Developer program and Frontend Masters' Professional Front-End Engineering path. Builds production-grade applications independently from schema design through payment infrastructure with a focus on type safety and architectural predictability. Currently expanding into backend fundamentals (Node.js, SQL, PostgreSQL).

PROJECTS

StoreFront - Full-Stack E-Commerce Platform (Independent project)

Stack: Next.js (App Router), React 19, TypeScript, Drizzle ORM, Neon PostgreSQL, Clerk, Stripe.

- Designed the database schema and queries with Drizzle ORM against Neon PostgreSQL.
- Built API routes handling cart logic and Stripe payment webhooks.
- Integrated Clerk for authentication.
- Mobile Lighthouse: 100 Performance, 96 Accessibility, 100 Best Practices, 99 SEO.
